PAUL J. HOWARD'S ROSES have been famed for many years for their great vigor and robust growth. Carefully selected budwood is grown on special root stocks, which impart extra strength to the tops. We select two-year-old bushes which have made greatest development, so they will quickly become established in the garden, and will bloom in a few weeks after planting.

The Bush and Climbing Roses listed are available bare root in our sales yard from January 1 to March 15.

ESTABLISHED ROSES for planting throughout the year, and when dormant Roses are not available (April to December), are planted out in especially prepared soil, in 5-gallon tins. These superior large bushes may be selected and planted out in full bloom. Because of weight and bulk, Established Roses are practical only for local truck delivery, or "Cash and Carry."

BUSH ROSES, established in 5-gallon tins, \$1.00 more than Bare Root prices.

SLEIGH BELLS

(Pat. No. 1004)

Now, a white rose that really grows, and blooms and blooms and blooms! The large ovoid buds are borne singly on exceedingly long stems, and are produced so freely that you can gather quantities for the table. The flowers open gradually into blooms of great size, with 40 or more large petals of heavy substance, and are lovely in all stages. Unusual for white roses, the stems are clothed with thick leathery, glossy foliage that is exceptionally disease resistant. A trace of cool lemon yellow at the base of the petals, and at certain seasons, a tinge of pink, add life to the flower. Best of all, this white rose is really fragrant.

The bushes, full of bloom almost continuously, make a grand garden display. \$2.00.

FRED HOWARD

The Great All-America Rose Selection Winner for 1952

A glorious new yellow, and one of the most rugged Roses ever introduced. The large vigorous plants attain a height of four feet, have lustrous green foliage, and very long, strong stems holding erect each glorious fifty-petalled yellow flower. In the fall blooming season there is a notable transition in color of the Fred Howard Rose. The yellow is washed with a lovely overtone of burnished gold and copper. At times the high centered flowers show a suffusion of rosy mauve. Then they are at their zenith—a perfect harmony of lovely autumn tints.

The Fred Howard Rose has a delightful fragrance that can be likened to the Marechal Niel, or the old tea roses so beloved years ago. The freely produced flowers have proven to last much longer than most any other variety after cutting. Price \$2.75
